U.S. Roast Game Casualties Separated By Generations (From Millennial To Generation Alpha)!

Bryan Mullins The Fox 7 min read · Dec 29, 2025

I've spent almost an entire week doing research and math…it was extensive, but here it is!

I've started on Christmas Eve (December 24th) and finished on December 28th 2025!

For Millennials, the max and last year involving Millennial Roast Game Casualties is 2013.

For Millennials, the minimum and first year involving Millennial Roast Game Casualties is 1998.

For Zoomers, the max and last year involving Zoomer Roast Game Casualties is 2016 (meaning that the youngest zoomers born in 2012, were 4 years old when The Roast Game Era ended)!

For Zoomers, the minimum and first year involving Zoomer Roast Game Casualties is 1998, when they're under a year old or just a year old.

For Generation Alphas, the max and last year involving Gen Alpha Roast Game Casualties is 2016. The youngest of Generation Alpha in this context, was born in 2013.

For Generation Alphas, the minimum and first year involving Gen Alpha Roast Game Casualties is 2013.

Starting with Millennials per year, Children By Law (12–17 years old, percentage wise):

1998: Of those born between 1981 and 1986 (or 22,126,570 of them), the percentages for each year goes as follows: 0.164797255065% born in 1981, 0.16634015123% born in 1982, 0.164459877875% born in 1983, 0.165825114331% born in 1984, 0.169956798546% born in 1985, and 0.168620802953% born in 1986.

So of all the 128,526 Roast Game casualties in the "Children-By-Law" age group:

21,181 were born in 1981, 21,379 were born in 1982, 21,137 were born in 1983, 21,313 were born in 1984, 21,844 were born in 1985, and 21,672 of them were born in 1986.

1999: Of those born between 1982 and 1987 (or 22,309,172 of them), the percentages for each year goes as follows: 0.164978646451% born in 1982, 0.163113763254% born in 1983, 0.164467825162% born in 1984, 0.168565691277% were born in 1985, 0.167240630894% were born in 1986, and the rest were born in 1987.

So of all the 128,526 Roast Game casualties in the "Children-By-Law" age group: 21,204 were born in 1982, 20,964 were born in 1983, 21,138 were born in 1984, 21,665 were born in 1985, 21,495 were born in 1986, and 22,059 were born in 1987.

I'll just shorten it because you get the point now!

To also make it far easier to understand, the earlier the birth year, the older the age.

The later the birth year, the younger the age. So in this context, each ascending birth year, the ages accounted for each respectfully goes in this order: 17, 16, 15, 14, 13, and 12! And when it eventually gets to the point where we're at the latter portions of the Millennial Generation, the closer we get to finishing it off.

2000: Of those born between 1983 and 1988 (or 22,541,635 of them),
